

California LSWP Triennial Assessment Guidance

Local Education Agencies (LEAs) must conduct a comprehensive assessment of the Local School Wellness Policy (LSWP) a minimum of once every three years, beginning no later than June 30, 2020. The 2020 triennial assessment requirements are: 1) comparison to a model policy; 2) progress with the LSWP goals; and 3) compliance with the policy. The structure of the assessments prior to 2020 is up to LEAs. For triennial assessments conducted 2020 and later, LEAs may choose their methods to meet the three requirements outlined above. One online tool recommended for model policy comparison is the Well SAT, which can be located on the Well SAT website at <http://www.wellsat.org/>. LEAs may use action planning documents containing timelines, goals, and tasks to assist in measuring progress and compliance with the policy. An online tool that helps with action planning and recordkeeping is the School Health Index*. LEAs must also make the results of the triennial assessment available to the public. LEAs may use this California LSWP Triennial Assessment Guidance to organize their notes regarding the 2020 assessment. Remember, LEAs should keep a copy of the most recent, dated assessment available to show during the school food authority administrative review.

5. Please add any comments or notes and identify and the attachments:

Our school is very small and our resources are very limited. We take health and wellness for students and staff seriously and are always looking for a better way to communicate healthy alternatives, while also acknowledging our community & school culture.
